Background From 1952 until 1992, Chemcene Corporation sold and reclaimed industrial cleaning solvents. In April 1998 and 2001 EPA settled with approximately 178 *de minimis* parties. In December 1999, the U S District Court for the Eastern District of Pennsylvania entered a Consent Decree between EPA and 35 non-*de minimis* parties ("RD/RA Consent Decree PRPs"). Among other things, the RD/RA Consent Decree PRPs agreed to implement the Remedial Design and Remedial Action specified in the November 1997 ROD.

In December 2002, the RD/RA Consent Decree PRPs filed a contribution action ("PRP Contribution Litigation") against a number of Site PRPs, including *de minimis* PRPs that have not entered into any *de minimis* settlements with EPA. In response to the PRP Contribution Litigation, EPA received a number of requests from *de minimis* defendants, including many *de minimis* PRPs to be included in EPA's offer to enter into a Third Round De Minimis Settlement, seeking to settle their alleged CERCLA liability at the Site and to avoid substantial litigation costs.
